New Packing Charge: 20c must be added to every complete order for this.

Postage: Purchaser pays all transportation charges.

To cover parcel post add following to total of list prices and remit us. (We refund excess, if any, over actual postage. Or if postal costs are over estimate, we bill you for difference.)

(On orders over \$15 use only ½ of percentages for postage.)

10% if east of Cleveland, Ohio, and north of Potomac River.

15% if west of Cleveland, Ohio, and east of Miss. River. Also, if south of Potomac.

20% if between Miss. River and Rocky Mts.

25% if west of Rocky Mts.

Special Handling: If you wish extra postal speed and safety on long distances add 35c to order.

Payment: Full remittance (including postage) must accompany order.

Substitutes: May we substitute similar plants of equal value for any varieties which are sold out?

Minimum order: \$3.00.

Guarantee: We send out only strong, healthy plants correctly labeled and properly packed. We refund list cost of any plants completely destroyed in parcel post transit if notified within 5 days after arrival. For no reason will we be responsible for more than purchase price. Having no control over plants after delivery, we cannot guarantee them to grow.

BEGINNER'S COLLECTIONS

of Hardy Rock Plants or Taller Perennials

Our own selection of labeled varieties (including many higher priced kinds) from the following 1962 lists of plants. You choose whether we send all rock plants or all taller perennials and the location the plants are to be suitable for. Specify where plants are to be used—among rocks, in taller display beds, for dry wall, in cut flower bed, in low flower border, between stepping stones. Also state whether for sun or shade or both. See Conditions of Sale for postage.

12 plants (1 each of 12 different varieties) \$4.70

24 plants (2 each of 12 different varieties) \$8.70

36 plants (3 each of 12 different varieties) \$12.90

CULTURE KEY: S. does well in semi-shade or sun. Ss. give semi-shade. D. does well in dry, sunny places. W. woodlander, requires lightly moist humus in semi-shade. M. likes moist places. If no key—give sun, good garden soil. Most early spring flowering plants are best transplanted in Sept.

Sky-Cleft Gardens

A LEADING AMERICAN ROCK PLANT COLLECTION

Camp St. Ext.

—

Barre, Vermont

Situated in the heart of Vermont's Green Mountains on a high rich field running into a maple wood, Sky-Cleft continues to be a center of fascination where thousands of kinds of plants from the near and far corners of the world are tested and propagated. From the failures a record of experience is gained while the many varieties which thrive earn a listing in our catalog and then journey into successful gardens all over America.

Ours is not a block of greenhouses where plants in pots are pampered into luxuriant weakness but rather a place where they are grown under much the same or more rugged conditions than they will face in the average garden.

Due to our arctic climate which insures hardiness our shipping season starts rather late in April but plants here are still completely dormant then, ready to travel well and shoot into growth in your garden. Our season of shipment continues to early Nov. Ideal times for plant travel during the period are May and Sept.

Again thank you for your ever increasing enthusiasm.

Donald Allen, proprietor and nurseryman.
